

Cambodia Dental Project 2017-2018

Be part of a pioneer humanitarian project in the villages of northwest Cambodia. Working in partnership with HUSK and the Shinta Mani Foundation, we will set up a mobile dental clinic and provide first time dental care for children in a village outside Siem Reap. During the clinic, volunteers get to know the local village people and take in rural countryside life.

Volunteers work in the clinic for six days. After the clinic, the journey continues with sightseeing of Angkor Wat and fascinating Siem Reap, or continues on to explore magical Luang Prabang in Laos or the pristine beaches of Vietnam.

“What keeps me coming back is the very special camaraderie within every team. When volunteering with such high need populations, you just want to take care of the kids the best you can – it’s the only thing on your mind. My only regret is not having started this work when I was even younger – it’s made me more complete.”
– Nick L. – volunteer since 2010
